INTRODUCTION

Morning Glory Behavioral Health Program is an adult partial care program that provides a comprehensive, structured program for individuals with severe & acute mental illness. The program provides a wide range of psychiatric rehabilitation activities designed to meet the special requirements of adults with serious, disabling and prolonged mental illness and substance abuse issues.

The goal of the program is to enable clients to be reintegrated into the community at their maximum level of functioning and to reduce the risk of hospitalization and relapse. Additional goals include maximizing the clients' mental, emotional and psychological stability in an atmosphere of learning and socialization that is conducive to the development of independent living skills. We also facilitate independent living situations when possible and provide continued support and training that are holistic in nature, ensuring the needs and emphasizing the rights of the client.
